

Ponce Health Sciences University- Moffitt Cancer Center Partnership

Student Research Opportunity in Tampa!!!

The Ponce Health Sciences University & Moffitt Cancer Center Partnership are accepting applications from MSMS, Medical and Graduate students interested in an 8 week research rotation at Moffitt Cancer Center in Tampa, F.L.

The primary goal of this program is to allow cross-institutional training of MSMS, Medical and Graduate students from MCC/USF and PHSU in specialized areas of cancer. Areas include basic and translational cancer research as well as education into the problems associated with delivery of cancer care and research in minority populations.

Application Deadline: February 5th, 2018
